

AgForests, a joint initiative of AgForce and Timber Queensland, and part of the AgForward Program bring you a free, fully catered for...

AgForests Field Day Workshop at Gordon Donovan's property Donkell at Oman Ama.

**Wednesday 5th of August
8.30am – 4.00pm**

Selling & Thinning Native Timber on Freehold Land

**Making the most from your coloured areas by using
sustainable forest practices!**

* Sam Ellis (AgForests) will discuss and demonstrate what landholders can do regarding timber harvesting and forest practice thinning in both 'coloured' (remnant) and white (non-remnant) country, and comply with the Vegetation Management Act and Native Forest Practice Code.

- * Also covered:
- *How to combine grazing and native forest timber production*
 - *Knowing more about timber markets and products*
 - *Understanding 'productive' and 'unproductive' trees*
 - *Protection of biodiversity, habitat, and ecological values.*
 - *Nationally accredited training day that can go towards the attainment of a Certificate IV in conservation and land Management.*

Gordon Donovan with assistance from Agforests has used a chopper roller to mechanically thin cypress on his property at a cost of approximately \$50/ Hectare. The use of machine thinning of cypress under the code will be discussed and the site inspected.

**Lunch, Morning and Afternoon Tea all provided
BYO Hat/Raincoat and Chair**

RSVP Required for Catering – 0427 694 771
